

Isabella García Merlano

Game Designer

+57 3013745730 | isagamerlano@gmail.com | [LinkedIn](#) | [Portafolio](#)
Bogotá D.C, Colombia

Game Designer with a background in Multimedia Engineering, specializing in systems design and UI/UX with a focus on mechanic deconstruction and intuitive game loops. I have experience integrating technical systems and gameplay mechanics in engines like Unity and Godot to create polished, self-contained experiences. I bring strong analytical thinking, cross-functional collaboration skills, and the ability to translate complex design theories into engaging, playable mechanics. I add value to projects by optimizing technical design pipelines and rapidly prototyping ideas to elevate the overall quality of the user experience (UX).

EDUCATION

Generation Colombia
Junior Unity Developer

Bogota D.C, Colombia
January 2026 - May 2026

New Granada Military University
Multimedia Engineer

Cajicá, Colombia
August 2019 - April 2026

WORK EXPERIENCE

New Granada Military University
Researcher in Research Seedbed

Cajicá, Colombia
January 2022 - August 2025

- Designed and implemented an immersive RPG experience in RPG Maker MV with custom mechanics, with 90% of evaluators highlighting a strong emotional connection to the story.
- Led the technical and creative development of the demo, achieving a seamless integration between problem-solving mechanics and a deep narrative to maximize the emotional impact on the player.

Tan Grande Y Jugando
Volunteering at the Beta Test Fest

Bogota D.C, Colombia
October 2024 & October 2025

- Assisted with operational logistics during the event, providing direct support to exhibitors from the Colombian video game industry to ensure the smooth operation of their showcases.
- Participated in playtesting (beta testing) sessions for multiple projects in development, interacting directly with the creators.
- Provided structured feedback on usability, game mechanics, and user experience (UX) to support the iteration and improvement of the showcased games.

PROJECTS

Within The Mirror
Serious Game Project - Developer and Speaker

January 2022 - August 2025

- Designed and programmed a mental health-focused role-playing game, integrating interactive dialogue systems and narrative puzzles that translate psychological concepts into gameplay mechanics.
- Lead author of the [technical paper](#) documenting the impact of these narrative mechanics, successfully passing the peer-review process for official publication in the IEEE Xplore digital library.
- Achieved the project's selection among multiple international submissions for showcasing and presenting the [demo](#) at the IEEE Conference on Games 2025 in Lisbon, Portugal.

SKILLS

- Python | C++ | C# | Game Design | HTML/CSS | JavaScript | Unity | Godot | Maya | Substance Painter | Jira | Trello | GitHub | UX/UI Design | Systems Design | Narrative Design | Digital Marketing

LANGUAGES

- English (Advanced) / Professional Working Proficiency)
- Spanish (Native)
